

ALMO DIGITAL SIGNAGE SERVICES FOR BRIGHTSIGN

Player Configuration

SKU : PLYRCONFIG

Reseller cost: \$60.00 per player
MSRP: \$120.00 per player

Remotely configure BrightSign players according to end user network configuration (provided by end user), player location (name), and BrightAuthor communication method.

- Remotely setup and files for MicroSD card.
- Dynamic or Static IP network address setup.
- Remotely load client logo placeholder content (Requires BrightSign Network Pass).

For best end user experience, pair with BrightSign Basic Onboarding & Concierge Service.

Almo BrightSign Basic Setup & Concierge Service

Requires Player Configuration SKU :
BS-SETUP-BASIC

Reseller cost: \$720.00
MSRP: \$1200.00

Almo's digital signage service team will handle presentation and media player setup, along with simple training on day-to-day content management.

This service is intended for end-clients with basic content needs only – such as slide shows, videos, Live TV zones, and simple RSS tickers. More complicated presentation requires a custom quote.

Almo will perform the following:

- BrightSign Network setup (if purchased)
- Initial playlists build (using end user supplied images/videos)
- Zone layout
- Basic ticker setup (RSS feeds, text)
- Initial content upload to BSN
- Initial content testing

Almo will provide 30 minutes of training on regular content management tasks including uploading new media, playlist editing, editing ticker messages, content publishing, and proper media formatting for images and videos. Training does not cover advanced player setup, content editing with third party software, HTML content, or other complex tasks.

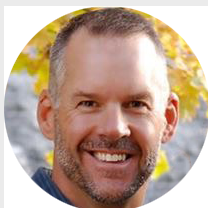

Contact our Services Development Managers for more information or to request a quote today.
